

RIGHT OF WAY EASEMENT (General Type Easement)

KNOW ALL MEN BY THESE PRESENTS, that _____, (hereinafter called "Grantors"), in consideration of one dollar (\$1.00) and other good and valuable consideration paid by Possum Kingdom Water Supply Corporation, (hereinafter called "Grantee"), the receipt and sufficiency of which is hereby acknowledged, does hereby grant, bargain, sell, transfer, and convey to said Grantee, its successors, and assigns, a perpetual exclusive easement with the right to erect, construct, install, and lay and thereafter access and use, operate, inspect, repair, maintain, replace, upgrade, parallel and remove water distribution lines and appurtenances and any other facilities necessary to serve Grantors' property [including that property's water meter(s) if the easement is located at or near the property line] as well as the Grantee's current and future system-wide customers, under, over and across _____ acres of land, more particularly described as (911 Address) _____, (Lot) _____, (Block/Area) _____, (Sub-Division/Tract) _____, or (Abstract) _____ in instrument recorded in Vol. _____, Page _____, Deed Records, Palo Pinto / Stephens County, Texas, together with the right of ingress and egress over Grantor's adjacent lands for the purpose for which the above mentioned rights are granted. The easement hereby granted shall not exceed twenty feet (20') in width, and Grantee is hereby authorized to designate the course of the easement herein conveyed except that when the pipeline(s) is installed, the easement herein granted shall be limited to a strip of land 20' in width the center line thereof being the pipeline as installed.

Grantee shall have such other rights and benefits necessary and/or convenient for the full enjoyment and use of the rights herein granted, including without limitation, (1) the reasonable right of ingress and egress over and across lands owned by Grantor which are contiguous to the easement for the purpose of accessing the easement in the most efficient and effective manner but not to use Grantor's contiguous property for other purposes; (2) the reasonable right from time to time to remove any and all paving, undergrowth and other obstructions that may injure Grantee's facilities and appurtenances or interfere with the construction, maintenance, inspection, operation, protection, repair, alteration, testing, replacement, upgrading, paralleling, relocation (as above limited), substitution or removal thereof; and (3) the right to abandon-in-place any and all water supply lines, service lines and associated appurtenances, such that Grantee shall have no obligation or liability to Grantor or their successors or assigns to move or remove any such abandoned lines or appurtenances.

In the event the easement hereby granted abuts on a public road and the county or state hereafter widens or relocates the public road so as to require the relocation of this water line as installed, Grantor further grants to Grantee an additional easement over and across the land described above for the purpose of laterally relocating said water line as may be necessary to clear the road improvements, which easement hereby granted shall be limited to a strip of land 20' in width the center line thereof being the pipeline as relocated.

Grantor shall have the right to construct and maintain a driveway across the easement so long as it crosses the easement at an approximate ninety-degree (90°) angle and does not cover the easement for a protracted or unreasonable distance. Grantor takes this action with the full knowledge and understanding that Grantee may, at some unknown date, without or without advance notice, have to excavate its water line for maintenance or repair. Thereafter, Grantee shall be charged only with a reasonable duty to restore the drive to a working condition without guarantee or warranty of aesthetic or pre-existing condition.

Grantor shall have the right to erect a fence(s) across the easement for the purpose of containing livestock and domesticated animals. However, if Grantor erects a fence(s), Grantor shall install a gate at each end of the easement (if the total easement exceeds 300 feet or if it crosses a watercourse). These gates may be locked but the locking combinations must be given to the Grantee and not changed without its prior knowledge. The Grantor's water meter shall be located in proximity to a gate for ease of reading if maintained behind the fence. One gate may be replaced by a stile capable of bearing a 300-pound person to be located at the site of the water meter. This requirement for gates and fence stiles may be waived in writing by Grantee on a landowner-by-landowner basis as the property passes in chain of title in recognition of Grantee's above-recited right of access

across Grantor's contiguous lands if the waiver does not place an undue burden on meter readers.

The consideration recited herein shall constitute payment in full for all damages sustained by Grantors by reason of the installation of the structures referred to herein and the Grantee will maintain such easement in a state of good repair and efficiency so that no unreasonable damages will result from its use to Grantors' premises. This agreement together with other provisions of this grant shall constitute a covenant running with the land for the benefit of the Grantee, its successors, and assigns. The Grantors covenant that they are the owners of the above described land and that said lands are free and clear of all encumbrances and liens except the following:

Grantor does hereby bind itself, its successors and assigns, to WARRANT AND FOREVER DEFEND, all and singular, the easement herein granted to Grantee, or Grantee's successors and assigns, against every person whomsoever claiming, or to claim, the same or any part thereof.

The easement conveyed herein was obtained or improved through Federal financial assistance. This easement is subject to the provisions of the Title VI of the Civil Rights Act of 1964 and the regulations issued pursuant thereto for so long as the easement continues to be used for the same or similar purpose for which financial assistance was extended or for so long as the Grantee owns it, whichever is longer.

IN WITNESS WHEREOF the said Grantors have executed this instrument this ____ day of _____, 20 ____.
